Between now and June 2018, Lioness will be required to make a choice. As part of the Centennial Celebration, Lioness Clubs are being offered a choice to bridge to a Lions Club. If your club bridges, you will be your own Club, and will not be associated with another Lions Club. Interested Clubs will need to have at least 15 members to bridge. The Charter fee has been reduced to \$300. Once a Lioness Club bridges, each member will be responsible for International, State and District dues which average about \$60-70 a year per person. As of now, Bridging would still be available after June 30, 2018, but the Charter fee will probably increase. The opportunity to bridge is something you all have to think about and discuss, then discuss some more. There are probably a lot questions and concerns about Bridging. Affiliate District President Bonnie Goeser is available to answer those questions and would be happy to attend meetings to explain the Bridge program to your members. Contact her at the phone and email listed above.
