Greg: The definition of "Bodily Injury" in the policy has been amended to include injury arising out of the rendering of or failure to render professional services by a physician, dentist or nurse while employed by, or donating his services to the Named Insured. Your Club would be protected for its contingent liability for the doctor's acts. The doctor's own malpractice insurance would be primary. We provide "Incidental Malpractice" coverage for the Club only and do not cover the doctor for his direct professional liability. Trained professional technicians are treated the same as doctors when performing services within their profession.

If you have any further questions or concerns, please feel free to call.

Thanks,
